Your Pond is Warming Up

What you should know and how to help your fish survive

At the May meeting, it was decided to devote the last hour of our monthly meetings to education, members' questions about their fish and/or ponds, and any concerns they may have regarding our club. Some of our members have expressed concerns that their opinions are not important. NOT TRUE! Each and every member is needed – we all have something to contribute. That is what enables our club to grow – how we learn together.

If you have not been attending meetings because you have some of these concerns, we hope you will return.
